B., box 139 Herald office. WALL STREET FERRY, PRIDAY, 6:20 P. M.—GREEN veil, white muff; Montague, Clinton, Union streets. If acquaintance would be agreeable, please address LEXINGTON, Herald office, stating interview.

A NMOUNCEMENT OF THE UNIVERSITY MEDICINES, THE THAUMATURGICAL REMEDIALS.

Guaranteed to cure ten cares of disease to every one cured by all the physicians and patent medicines combined or no charge. THE GREATEST SUCCESS OF THE AGE.

26,808 CURES IN EIGHT MONTHS. THE PROOFS GIVEN.

The UNIVERSITY MEDICINES are the favorite preacriptions of the New York Medical University, and are prepared in consonance with the views of a number of distinguished living American physicians, who believe that the time is come when ducated physicians should arise and make a declave effect to overthrow the health-destroying system of Quackery prevailing in a very town and city, and substitute scientific, sponsible Remedials—made in accordance with the "ples of Medical Chemical Date of the worthcar and the state of the propersion of the Patent determined the state of the propersion of the Patent determined the state of the propers of the propersion of

SPECIAL NOTICES. Enowledge of their therapeutic powers and physiological effects.

Nothing cheap or impure has been tolerated in their composition. They are made upon the square and can be reited on. What may seem aimost incredible is the astonishing rapidity with which they cure disease bitherto considered in curable. They are standard, most of the ingredients constituting them having been used by the physicians of the University a their private practice for more than twenty years. They are sold with the understanding that they exceed their recommendation, and are the very best Household and Physicians' Medicines extant. They supply a want never before filed.

section in a pure, concentrated state, rendering to them ac efficacy, reliability and masterly power hitherto unknown in medicine.

They contain no dangerous drug!—no lead, mercury, opium ar arsenic. They are prepared with great care and study, in exact accordance with the principles of chemical compatibility—something that Patent Medicine makers know nothing of. We have no one "core ail" for all diseases; but a regular system of Remedicas for each distinct class of main itss. Our Remedies are all safe, and naver reduce the patient—never render any one more liable to take cold—levor obligs a person to leave business—never make their continuous use a condition of cure.

They act as kindly on the tender infant, the most delicate adhelic system—exercians them one habit in husers on every Nerve and Blood Vessel—on the Bran, Heart, Glands and Lyuphaitics—on the Bones, Tendens and Muscies—on the Blood, Bile, Gastrie Juice, Lymph, Chyme, Chyle, &c.—eradicating every morbite agent, every poison—invigorating the debilitated organs—enriching impoverished fluids—building up the dauging anrous energies—impartine vigor to body and mind, and bringing every faculty into healthy play.

To prepare medicine properly, a knowledge of Anatomy, Physiology, Pathology, Therapeutics, Materia Medica, and Chemistry is absolutely indispensable. The cup of tea we drink contains volatile oil, chlorophyl, war, resia, gum, tannin, thene, extractine, apotheme, albumen, sulphur, phosphorus, chloride of potassium, oxide of iron, carbonate, sulphate and phosphate of lime, carbonate of magnesia and allica—iwenty different agents.

Without as knowledge of this science no person is qualified to make or prescribe medicine. Where is the nostrum vender who is versed in any one of these branches of medical science? He does not exist on the face of the earth if Where is the charlatant or patent medicine maker who can give the constituents of the blood—who can explain the action of polonous substances upon the brain, the spinal cord, the toronach, the mus

We shall shortly publish a sworn list of 1,000 of the most remarkable curest ever effected in any age, together with claborate photographs of cases cured by the UNIVERSITY HEDICINES after all other treatment and remedies had alled.

These photographs will to a few days be placed on exhibition in various public places.

The following publications are free to all:

1. The celebrated Illustrated University Almanae for 1870, printed in colors, 100 pages, containing an elaborate description of the University medicines, the new system of medical practice (the Chemicopathic), our discoveries in medicine, testimonials, proofs, remarkable cures, important and novel physiological intormation, free to all who call or send. 2. History of the Cancer Plant. Contains illustrations of

remarkable cures.

3. The "New Remeejth." A therapeutic funnygraph.

4. The Physiological Counsellor. A faithful adviser to men and women. This beautiful little book should be read by all before consulting the newspaper advertising quacks.

A NOUNCEMENT

A DOWN TOWN AGENCY OF THE UNIVERSITY

We have taken the agency for the sale of the new and popular Health Restoratives.

The UNIVERSITY MEDICINES are evidently destined to become the remedies of the day. Already their sale is more extensive than that of any medicines. Thousands of physicians and patients are using them with a success bordering on the miraculous. Faintul and exhausting complaint, which resist all other methods of treatment, are cured by them almost instantaneously. If on trial they are not found to be the most rapid and shrandous curars of disease on the face of the earth they will be surfaced to the earth they are not found to be the most rapid and shrandous curars of disease on the face of the earth they will be surfaced for the earth they filled free. They stand on their merits alone. Illustrated descriptive books free to all Open day and stafe.

Heraid Building, 218 Broadway, New York.
